

Instructions regarding the LMT M203;

The LMT M203 Grenade Launcher, FRT 125684-1 (9" barrel), attach to a parent firearm and are non-restricted firearms in Canada. Transferees must hold a valid PAL. These are exempt from Controlled Goods Registration Program (CGRP) requirements INSIDE CANADA per Section 6 (b) unless a stand alone stock or pistol grip is attached forming a Restricted Firearm. Should the firearm be converted to Restricted classification, the firearm must be registered with the Canadian Firearms Registry, kept on record, and the individual and/or organization holding it must be registered with CGRP. Classification and handling in other countries can be significantly different to Canada.

Export- The LMT M203 Grenade Launcher, in the same manner as the Colt Canada Integrated upper receivers (IUR, UKSF, etc) which have been distributed in Canada, is subject to re-export control by the United States Government. Any attempt to re-export requires the written permission of the US Government and of the Canadian Government in advance of any export.

All conditions regarding possession, alteration, and export apply to all future transferees and these conditions will be explained by the dealer and agreed by the transferee prior to transfer.

The following M203 Grenade Launchers are being transferred to the following buyer;
